

Buddy Class

One of the highlights of year four is visiting your awesome buddy class we have pre-primary E.T.Bz. We go on Fridays and do fun activities together. My buddy's name is Theo he is five years old and absolutely loves the colour blue he is often quite shy.

We have gone four times and every time has been great but my favourite time was week two we got a blank piece of blank paper we also got a piece of paper with numbers one two six if you rolled a one you would have to add something to our monster like a horn an eye and so on.

I think Theo looks and is very intelligent I believe he is learning from me and is becoming very strong he is also very inquisitive. I really enjoy playing with Theo and I think he likes playing with me.

Buddy class is lots of fun and I like being able to show Theo that if you are big you aren't necessarily mean.
