

The Day My Cat Became a Robot

By Rosie Greenan ☺

I woke up to the sound of almost silent whispering coming from the corner of my room, it was my small non talkable cat! Kitty my cat was talking how could this be? I was almost out of breath when I told my parents but like all parents they laughed and told me I had quite an imagination, I think that was to make me feel better but it did not. Then I told them to take a look themselves but kitty was gone then I saw her taking a limo in a TUX! I startled and said “Look! “

But again she was gone! How does she do that? My parents said I needed a rest so I went to bed. I started having weird dreams like kitty was a robot and was coming back to haunt me as kitty the not so friendly robot ghost! Then I started squirming in bed and like always I fell out of bed and went to get a drink of water, but walking down my hallway wasn't the same I heard strange noises like robots speaking but I knew it was all in my head... or was it. Then I remembered water I need water so I went and got some but on my way back I heard the same strange noises and when I got back into my room kitty robot was there! I had 3 choices

- ❖ I could scream and my parents would shout at me.
- ❖ I could kill her and she would haunt me again.
- ❖ Or just pretend it was all a dream and go to bed. I pick the last one the next morning it felt the same I went to go wake up mum and dad but they

turned in to robot's kitty had already gotten to them, "OH NO" how did this happen I screamed? "time to get out the hose", I went out the back and made sure my parents followed I sprayed them down, kitty too, and they are all normal now so I guess no more robots and happier endings. 😊
